CERTIFICATIONS & ACCREDITATIONS

We Are Certified!

Laundry plays a vital role in every healthcare facility's integrated infection prevention and control program.

Patients are literally surrounded by and exposed to yards of healthcare textile fabrics. Recently, several white papers have been written on the subject of laundry best practices to support infection prevention with the goal of improving patient outcomes. Hygienically Clean and HLAC have different perspectives on the best methodology to achieve the important goal of providing hygienically clean textiles.

Medico incorporates all three protocols to maximize the best possible outcomes for our healthcare clients!

CERTIFICATIONS & ACCREDITATIONS

Healthcare Laundry Accreditation Council (HLAC)

The key premise behind HLAC methodology for accreditation is to focus on the process. HLAC inspects a laundry's processes to ensure they meet a predetermined standard viewed as the best method of insuring that the product is clean and free from any danger to the patient. According to HLAC, the highest level of assurance can only be provided with a correctly designed and managed laundry and linen program. A thorough review and inspection of the laundry textile process provides the best assurance to the customer of a hygienically clean product.

TRSA Hygienically Clean Certification

TRSA's Hygienically Clean standards state that microbial measurement of clean laundry is the only true assurance that textiles pose no risk of infection. Hygienically Clean adds outcome measures to structural and process measures long mandated, regulated or suggested by public and private authorities. The Hygienically Clean designation assures the safety and cleanliness of textiles rather than certifying only laundry processes. Hygienically Clean is scientifically based on rigorous scheduled 3rd party testing.

Clean Green Certification

TRSA's Clean Green certified companies meet quality standards for effectiveness in conserving resources and minimizing environmental impact. Customers that use Clean Green certified companies to supply, launder and maintain linens, uniforms, mats and other reusable textiles can be assured that their provider maximizes sustainable practices. Large-scale laundries earn Clean Green standards by using high-capacity washing, drying and wrinkle-removal equipment that improve efficiency.

DICKIES SCRUBS

Wash. Wear. Repeat.

Introducing Dickies Industrial Strength Medical Uniforms: High-quality pieces designed for high-powered solutions.

Genuine Dickies Industrial Strength uniforms are designed with the same functionality and durability for which Dickies is known. Produced from an 80 Poly/20 Cotton mechanical stretch twill, these scrubs offer retail-like styling with the comfort and protection healthcare workers need. Our Industrial Strength scrubs have been wash-tested 75 times at 158 degrees Fahrenheit and meet the patient care product performance standards. They maintain quality through the rigorous laundry process of keeping healthcare workers hygienically safe, and hold up during long shifts and challenging situations.

Birthing Sheets Top & Bottom

42" x 88". Reusable birthing sheets are made with strong spandex fibers for exceptional durability and reduced occurrence of pinholes.

Med-Glide Patient Positioning Sheets

Low-friction bottom panel allows caregivers to reposition patients safely and easily.

SHEETS & BLANKETS

Knitted Fitted Sheet

Fits wide range of mattress sizes from 32 x 80" to 42 x 88". Reusable, long-lasting and stain-resistant to maintain bright white appearance.

Surgical Towels

100% Cotton. 17" x 29". Summit surgical towels are constructed of 100% cotton yarns.

Reusable Underpads

34" x 36". Breathable polyurethane film helps block fluid, but allows moisture vapor to escape, creating a drier patient environment.

Flat Sheets

White, 66" x 115". Reusable sheet is made from a durable blend of 55% cotton/polyester muslin fabric.

Gurney Sheets

Soft and comfortable made of knitted 55% cotton 45% polyester fabric.

Nicu Fitted Sheet

Soft, comfortable sheets made to stretch with movement. Breathable yet offer barrier protection from moisture.

Universal Drapes

Drape with 1" Round Fenestration and 5" x 5" Reinforcement Encasing, 22" x 22". Used in procedures requiring isolated exposure. 3 inch aperture.

Bath Blankets

Unbleached bath blankets made from exceptional yarns. Napped on both sides for a soft flannel surface with minimal pilling. Soft, warm, comfortable and highly absorbent.

Hyperbaric Blankets

Soft and comfortable 100% cotton fabric and hem threads make this blanket suitable for hyperbaric chambers. Blue continuous imprint marking reads "HYPERBARIC USE ONLY" to make sorting easy.

Bath Poncho

Made of 55% cotton/45% polyester. Eliminates the need to drape multiple bath blankets over residents and provides greater resident dignity. Measures 70" x 90" with 6" x 9" opening.

SHEETS & BLANKETS

Baby Blanket

Babies will definitely cuddle into these all-cotton, flannelized blankets. So soft, warm and fluffy, they work wonderfully as attractive crib or receiving blankets. Choose from a variety of adorable nursery prints.

Hospital Pillow Case

42" x 34". Engineered from proprietary Perfomax 100% spun polyester fibers for comfort and durability. Long-lasting and reusable.

Herringbone Blanket: Linen, Blue & Celery

70" x 108". Extremely cost effective due to durability. Lightweight and 55% cotton/45% polyester.

Draw Sheets

Perfomax 100% spun polyester, 54" x 81", 60/Case. Hydrogen peroxide bleaching for whitest, most consistent product possible.

Managed Dust Control Solution

A Managed Medico Dust Control Solution is essential to every business in the Healthcare Industry.

Our industry leading dust control solution will significantly help reduce your liability, and increase the safety of your patients and staff, by keeping your floors Clean, Safe and Dry.

Our line of floor mats, mops and towels will not only help reduce your liability but will also significantly enhance the image of your facility with our logo and message mat capabilities.

With a Managed Medico Dust Control Solution, your facility floors will always be Clean, Safe and Dry.

MESSAGE MATS

Custom Logo Mats

Looking for reliable, yet beautiful custom logo floor mats for your business? Something to keep the dirt and water out, but that's not an eyesore? Logo Mats are the perfect solution.

Entrance Mats

Effective at removing dirt and water and ideal for heavy traffic areas. Bi-level mat: upper level scrapes dirt and removes moisture from footwear. Lower level stores dirt and moisture to prevent it being tracked further into the building, until it is cleaned.

Wipe and Dry Zone Floor Mat

The all-in-one solution for safely sanitizing shoes. It features a 2' x 3' well that holds an abrasive insert and your preferred liquid sanitizer.

Scraper Mats

Molded tread surface cleats that effectively scrape tough dirt and grime from shoes. They are ideal for use outside as a scraper mat or as a slip-resistant mat in wet areas.

Sanitize Your Shoes Mat

Recommended for indoor commercial use in areas where you would like to identify locations, welcome, remind, or give directions to visitors or employees.

Wash Your Hands Mat

3'x5' mat constructed from static dissipative nylon yarn with a SBR (Styrene-Butadiene Rubber) backing. Fully launderable. Wash in cold water with mild detergent, lay flat to dry.

Masks Please Mat

3'x5' mat constructed from static dissipative nylon yarn with a SBR (Styrene-Butadiene Rubber) backing. Fully launderable. Wash in cold water with mild detergent, lay flat to dry.

Anti-Fatigue Mats

Our anti-fatigue mats are anti-microbial that can be autoclave sterilized and commercially laundered.

MICROFIBER CLOTHS & MOPS

Microfiber Cleaning Cloths: 16" x 16"

Multipurpose cloths for wet or dry cleaning of all above-the-floor surfaces to boost productivity. Ideal for patient contact areas like countertops and bedside tables for convenience. 100% split microfiber for increased durability

Microfiber Super Mops: 18"

Works with your existing wire frame and handle. Canvas backing for convenience.

Microfiber Traditional Wet Mop: 18oz

Traditional mop design made of microfiber for better cleaning. Fits standard mop handles, holders, frames and wringers.

Microfiber Traditional Wet Mop: 14oz

Traditional mop design made of microfiber for better cleaning. Fits standard mop handles, holders, frames and wringers.

DUST & WET MOPS

Superior Synthetic Floor Mop: 24oz

The yarns we use were developed to reduce their impact on our planet while maintaining the yarn's integrity during commercial use. Unique 4-ply (recycled) yarn blend. Poly mesh headband dries quickly and will not mildew or discolor.

Superior Synthetic Floor Mop: 16oz

These loop mops are designed for exceptional strength and absorption that will withstand multiple washings. Medline's recycled yarn blend is made from post-consumer waste. Grown and sewn in the USA.

Traditional Dry Loop Dust Mops: 24"

Works with your existing wire frame and handle. Canvas backing has ties and pockets for convenience.

Traditional Dry Loop Dust Mops: 36"

These loop mops are designed for exceptional strength and absorption that will withstand multiple washings. Medline's recycled yarn blend is made from post-consumer waste. Grown and sewn in the USA.
